

Argon Website Process

Your 7-Step Journey

How we create your website

Below is a simplified outline of your website journey with us. Most websites are generally completed in 8-12 weeks but this can be affected by a range of factors. Please discuss specific timeframes with your project manager.

1/7 PROJECT LEADER APPOINTED

One of our project leaders will contact you to guide you on the journey.

2/7 STRATEGY & CONTENT

Let's get your website project off to a good start with a clear vision and winning strategy.

3/7 DESIGN

Our designers get to work creating layouts that leave the right first impression.

4/7 CODING

Once designs are approved, it's time to start coding—your website becomes interactive.

5/7 TESTING & CONTENT ENTRY

Almost there! Now is the time to explore and finesse your website before launch.

6/7 WEBSITE LAUNCH

It's time for launch!

7/7 ONGOING SUPPORT

Enjoy the confidence that comes with having an annual maintenance package.

Additional Help

If you need assistance with your website you're welcome to contact our support team. Depending on what you need, this could be covered under your annual maintenance package. If not, we quote a fixed price upfront to give you peace of mind.
